| 46 | GWR Brass Key. AVONMOUTH DOCK STATION Level Crossing Ground Frame.<br>Avonmouth was one of the docks in the Bristol area & the Port of Bristol Authority<br>Operated its own Railway system.   | 350 |
| 47 | TREDINGTON CROSSING COTTAGE. Water churn, location marked twice once on the lid and once<br>on the can. This level crossing cottage was on the Birmingham & Gloucester Railway between<br>Ashchurch & Cheltenham. The cottage was without main's water until well into BR's days and these<br>churns were delivered daily by train. We sold a similar churn in 2011 and this one could<br>be the original issue. Don't miss this one it is the final one from the cottage. | 100 |

| 52 | 90354 Smokebox Plate from Austerity 2.8.0 introduced Feb 1943 by the Ministry of Supply to the design of Robert A Riddles. She was one of the few allocated to the Southern Region. Sheds include Brighton 75A and Redhill. Withdrawn from Agecroft 26B, 31st October 1964 and cut up at Wards of Killamarsh, disposal being given as 28th Fen 1965. The plate has been welded nicely by BR and the face repainted a long time ago.   | n/s |
| 53 | GWR Brass ground frame key. Marked No 11 Platform ground frame key. Believed to be from Bristol Temple Meads.   | 120 |
| 54 | GWR Independent Ground Signal much earlier version with extra weights. This has been dismantle for easier collection. Of the three types of GWR independent ground signals only this early pattern had its weight protruding at the front. Staff were advised not to stand astride the weight and lever assembly whilst cleaning or oiling the "dummy". In that position, a sharply operated ground signal could seriously affect ones future prospects! This will need to be collected from an address in South Gloucestershire. Viewing can be arranged by appointment. | 40  |

55	LMS Pillar type telephone by Ericsson. Brass hinges clearly marked LMS these period Telephones have a much earlier look about them with superb separate handsets.	50

67	Similar to lot 66	5
68	A box of railway videos (some sought after titles) and DVD's.	8
69	A selection of Ian Allen ABC's and Railway Observers (well worth a look)	18
70	2 boxed files of RCTS Observers, mostly early copies and some RCTS railway publications.	10
71	A good selection of railway tickets including quite a few platform tickets.	80
72	BR(W) Track Gauge in wood with spirit level (marked several times).	10
73	HUNTLEY & COCKRAM (Coal Merchants), Lawrence Hill Station, Bristol. Framed advert for supplying Welsh Coal from 11/6 a ton (that's under 60p a ton). Slight damage but a nice piece of history.	10
74	YATE SOUTH JUNCTION Signal Box diagram. Enginers office copy. Not dated but has GWR titles. Slight staining.	50
75	Pegger block instrument. The vendor informs us that this instrument was used on the S&DJR but we cannot confirm this. Several clues include a black/white enamel plate marked "UP TRAIN". Some restoration.	n/s
76	A Great Western Railway "Single" Spagnoletti block instrument with re-build marked GWR on the front (unrestored), much rarer than the "double" line version. Has the usual brass reminder flaps.	120
77	Midland Railway Block Bell in excellent condition (the best we have ever seen with really choice	65

petina and a superb ring tone)

- |    |  |      |
|----|--|------|
| 78 | Midland Railway non-pegger block instrument. Labelled inside as last services 01.01.1943 with another label 16.02.1932 (unrestored)  | 100  |
| 79 | Over 200 black & white negatives mostly steam subjects, all 120 format. All regions noted and they seem to have been taken by a very good photographer. These come with the usual copyright and have been stored in the correct way. These come with a CD which shows the location/date/exposure of each shot. | 70   |
| 80 | GWR Spagnotti "double" instrument without the later additional re-build features (some restoratic  | 110  |
| 81 | GWR single line crossing keepers indicator instrument in mahogany marked GWR inside, complete with bell mounted on the top (unrestored) a scarce instrument not often seen.  | 140  |

86	BR (early) Green Diesel Railcar drivers jacket (with original buttons) dated 1956 and a BR black porters jacket.	5
87	Detachable handle point lever marked BR. These were used in docks and pathways where the handle would be an obstruction.	5
88	Telegraph Instrument with an additional display on the rear, looks very old. Brass plate marked No 37 on the front. Our local signalling expert has not seen one of these before but thinks it is from a railway telegraph training school (such as existed at Manchester in the 1960's and Kings Cross into the 1970s). This would make sense as the instructor and pupil would sit on opposite sides of the instrument but see the same indications. The instrument has a large mechanical linkage between the handle and indicator (no electric involved). A real vintage instrument well worth a look if you are at all interested in early railway signalling practice.	110
89	BR(W) 3ft enamel home signal arm in good condition.	20
90	BR(W) 4ft enamel home signal arm dated 1967 immaculate condition; looks as if it has just come from the stores. It must have been taken down by a very careful S&T gang.	34
